REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The prior art of record fail to teach or suggest an integrated circuit comprising a first input pin (or address pin as claimed in claim 7) through which a signal (or address signal as claimed in claim 7) is applied to a first internal circuit and a second pin (or clock activation pin as claimed in claim 7) through which a second signal (or clock activation signal as claimed in claim 7) is applied to a second internal circuit, a distribution unit which receives and outputs a first input signal (or address signal as claimed in claim 7) input via the first input pin, and receives and outputs a second input signal (or predetermined address test signal as claimed in claim 7) input via the first input pin in response to a control signal, a level fixing unit for receiving the first input signal from the distribution unit and applying a signal having the same voltage level as the first input signal to a first internal circuit in response to the control signal, and an activation unit for receiving the second input signal via the second input pin and applying the second input signal to a second internal circuit or applying the second input signal output from the distribution unit to the second internal circuit in response to the control signal.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
